

PRICE LIST OF LABORATORY EXAMINATIONS – BIRDS

The cause of the disease	Examined material	Used capture method	Price € incl. VAT
Avian Bornavirus (ABV)	feathers, blood swab of cloaca, trachea, smears from the environment	PCR examination identification in biological material	40,00
Avian Polyomavirus (APV)	feathers, blood, smears from the environment	PCR examination identification in biological material	27,00
APV + PBFD Avian Polyomavirus + Beak and feather disease virus	feathers, blood, smears from the environment	PCR examination identification in biological material 1 -5 samples 6 – 10 samples 11 – more samples	31,00 27,00 23,00
APV + PBFD + ABV	feathers, blood, smears from the environment	PCR examination identification in biological material 1 -5 samples 6 – 10 samples 11 – more samples	72,50 68,50 64,50
Beak and feather disease virus (PBFD)	feathers, blood, smears from the environment	PCR examination identification in biological material	27,00
Bacteriological examination (Clostridium spp.; Escherichia coli including hemolytic strains; Enterobacteriaceae; Haemophilus spp.; Pasteurella spp.; Pseudomonas aeruginosa; Staphylococcus spp.; Streptococcus spp.)	cloacal swab, intestinal swab, feces, air sac, lungs, lungs, ovary, oviduct, lung tissue swab, paranasal sinuses, brain, joint, lungs, organs, yolk sac	Cultivation examination basic bacteriological examination selective isolation determination of sensitivity to ATB	14,00 16,00 16,00
Campylobacter spp.	cloacal swab, bowel swab, faeces	Bacteriological examination basic bacteriological examination selective isolation determination of sensitivity to ATB	14,00 16,00 16,00
Cryptococcus spp.	swab of skin, feathers	Cultivation examination basic bacteriological examination selective isolation determination of sensitivity to ATB	14,00 16,00 16,00
Cryptosporidium spp.	feces	Imunochromatografický test průkaz antigenu Cryptosporidium	18,00
Dermatophyta (Aspergillus spp., Microsporum spp., Trichophyton spp., Yeasts)	swab of skin, feathers	Cultivation examination basic bacteriological examination selective isolation determination of sensitivity to ATB	14,00 16,00 16,00
Giardia spp.	feces	Immunochromatographic test demonstration of Giardia intestinalis antigen	16,00
Herpesvirus (Pacheco's Disease Virus)	feathers, blood, swab, droppings	PCR examination identification in biological material	27,00
Chlamydomydia spp.	swab of cloaca, choana, sinuses, conjunctiva	Real Time PCR examination identification in biological material	35,00
Ch. spp. + Myco. spp. + Urea. spp	conjunctival swab, nasal swab, genital swab	Real Time PCR examination identification in biological material	72,00
Mycoplasma spp.	tracheal swab, cloacal swab, organs	Real Time PCR examination identification in biological material Bacteriological examination basic bacteriological examination	35,00 20,00
Paramyxovirus (NDS)	blood, punctate, tissue biopsy	Molecular detection (Tillia) detection in biological material*	53,00
Parasitology	feces	Parasitological examination certificate of flotations demonstration of flotations +Cryptosporidia)*	11,00
Salmonella spp.	cloacal swab, droppings, swab of the intestine, organs	Bacteriological examination basic bacteriological examination selective isolation determination of sensitivity to ATB serotyping*	14,00 16,00 16,00 47,00

The cause of the disease	Examined material	Used capture method	Price € incl. VAT
Trichomoniasis	faeces, cloacal swab	PCR examination (Laboklin) identification in biological material *	61,00
Ureaplasma spp.	tracheal swab, cloacal swab, organs	Real Time PCR examination identification in biological material Bacteriological examination basic bacteriological examination	35,00 20,00
Utusu Virus (USUV)	blood, puncture, tissue biopsy	Molecular Detection (Tilia) identification in biological material*	53,00
Sex determination (by orders: parrots (Psittaciformes), birds of prey (Falconiformes), pigeons and doves (Columbiformes), perching birds (Passeriformes), owls (Strigiformes))	beak swab, blood, feathers	Real Time PCR examination identification in biological material 1 -15 samples 16 – 35 samples 36 – more samples	9,00/sample 8,50/sample 7,50/sample
Sex determination + APV + PBFD	blood, feathers	Real Time PCR examination identification in biological material 1 -5 samples 6 – 10 samples 11 – more samples	37,00/sample 34,00/sample 32,00/sample
Cytology	tissue fluids, urine	Cytological examination impedance method*	6,00
Biochemistry Haematology	blood, serum	Biochemical and haematological examination*	according to the price list Biochemistry, Hematology
Mycotoxins (DON, Zearalenon, Aflatoxin*, T2*)	feed	ELISA 1 mycotoxin	70,00
Environmental control	environmental swabs	Bacteriological examination basic bacteriological examination (1 sample)	12,00
Pathological-anatomical examination	birds	dead individual	12,00
Histology	organs		32,00
Trunk preservation at – 80°C			6,00
Lamination of DNA results			1,00
Handling fee (postage) according to the country of shipment and the size of the shipment			2,00

* External examination

Unless otherwise stated, the price of the examination is for one sample.

Price list valid from 1.10.2025.
